NEGRO CONVICTS SHOT BY GUARDS AT STATE PRISON

ONE MAN KILLED AND THREE OTHERS SERIOUSLY HURT.

(International News Service.)
Birmingham, July 28.—One negro was killed and three wounded as the result of a terrific pistol battle with guards at Flat Top prison late yesterday afternoon. As the convicts emerged from the main entrance outside the stockade they opened fire on the guards at the entrance and attempted to shoot their way out. The guards returned the fire, killing John Daniels, fatally wounding Riley Brown and wounding Herman Beard and George Bailey. A fifth negro ducked back into the mine and escaped being shot.

Rookies Who Failed Are Being Discharged From Officer's Camp

(International News Service.)
Atlanta, July 28.—Approximately 100 rookie officers were today discharged from the officers' training camp at Ft. McPherson. More than 300 of those left, who are least fitted for commissions have been discharged this week, and all those remaining in the camp after today will be practically assured of commissions. Some of the men have been told informally that they have been recommended for certain ranks, but commissions will not be handed around until August 14, on which day the officers will finally graduate.

ONE FORM OF ADVERTISING MISSING IN NEW DIRECTORY

The new city directory for Albany and Decatur, now being compiled by R. L. Polk & Co., will lack one feature that was very conspicuous in the A. C. Frey directory of 1905—the liquor advertisements which were glaringly displayed on many pages of the old directory. A great sensation would be created today if an advertisement should appear in the directory reading: "White Maple Distillery, Second Ave., pure Tennessee sour mash and Lincoln county whiskey." Other advertisements in the old directory read: "A Strictly First Class Saloon," "Fine Whiskies, Wines" and "An Up-to-Date Bar-room."

At 8 o'clock the bottles in which the donations received during the past two weeks have been confined, will be opened at

(International News Service.)
Geneva, July 28.—Bavarian and Austro-Hungarian troops driving southward through Galicia from Kolomea have captured all the defenses of Czernowitz, the capital of Bukovina, it was stated in dispatches from Berlin today.

The Russian army that had been holding Czernowitz retired toward the southeast.

Terrific fighting is in progress east of the Sereth river and in the Moldavian province of Roumania. At some points stiffened Russian resistance has checked the Austro-German advance, but between the Dniester and the Carpathians the Russian retreat continues. In that district the Russians are reported today to have evacuated the towns of Teczenizyn, Kutzy and Viznitz, as well as numerous smaller villages, leaving behind them large stores of food and war supplies.

GERMAN BATTERIES POUND ALLIED LINES IN BELGIUM.

(International News Service.)
London, July 28.—Great batteries of mighty German guns continue to pound the allied front in Belgium from Armentieres to the North sea. The war office reported today that the bombardment was particularly heavy in the sectors of Armentieres, Ypres and Nieuport. Near Armentieres the British successfully raided German trenches, inflicting heavy losses.

BIGGER THINGS EXPECTED SAYS JOURNAL CORRESPONDENT

(International News Service.)
Paris, July 28.—"There is now a comparative lull on the Aisne river front, but the big guns are rumbling in Thessaly and it is believed that this cannonading is the forerunner of a greater clash to come," says George Prade, war correspondent of the Journal, in a dispatch printed today.

THOUSAND BRITISH FACTORIES ARE TURNING OUT PLANES.

(International News Service.)
London, July 28.—More than 1,000 factories in Great Britain now are engaged in the construction of aeroplanes. Even this number is insufficient to supply the army's need, it was learned here today.

MUTINOUS RUSSIAN SOLDIERS ARE BEING EXECUTED.

(International News Service.)
Copenhagen, July 28.—Generous executions of mutinous Russian soldiers are taking place daily on the eastern front, according to advices from Petrograd. Russian officers, it was said, furious at the troops for deserting their trenches, banded themselves into small groups and fought like privates.

OFFICIAL MASTER LISTS FAIL TO COME; NO EXTRA EDITION

"Somewhere in the Mails" the Draft Lists are Leisurely Moving Along

The official master lists of the drawing for the new national army which took place at Washington more than a week ago, had not reached the office of the Morgan county exemption board this afternoon. They are believed to be "somewhere in the mails" or to be reposing at the office of Governor Henderson at Montgomery. When they will arrive is now merely a matter of conjecture, as more than sufficient time has elapsed for their transmission even by slow mail from the national capital.

Owing to the failure of the lists to arrive, there will be no special edition of the Daily Sunday. The full and complete list of men drafted in the county—3212 in all—will be published in a regular edition of the Daily one day next week, as soon as the official master lists arrive and the necessary compilation is made.

HOLLAND, PEEVED, DINSMORE HONORED MAY RETALIATE BY STATE FARMERS

(International News Service.)
Washington, July 28.—Holland will retaliate against the American embargo on foodstuffs, if the forthcoming Dutch economic commission is unable to sway the exports council from its present policy of denying license to all grain and fodder exports for the Netherlands.

This was the statement of Chevalier Van Rappard, Dutch minister to the United States. It was made plain, however, that the retaliatory measures all would be commercial in character.

DINSMORE HONORED BY STATE FARMERS

Morgan County Man Elected Vice President. Jones is President.

C. M. Dinsmore, of Falkville, was elected vice president of the State Farmers' Union, at the final session of the organization held at Birmingham Thursday. This honor is very much deserved by Mr. Dinsmore, as he has been untiring in his efforts to promote union and greater efficiency among the farmers.

The convention went on record as heartily in favor of good roads, and urged that every effort be employed in the passing of legislation to use convicts on the county thoroughfares.

The other officers elected were: S. T. Jones, of Newton, president; O. P. Ford, McFall, secretary; executive board, J. J. Robinson, Fayette; E. C. Bassett, Troy; J. B. Crews, Sampson; R. C. Hicks, Bibb county; W. H. Conway, Jemison. The appointment as lecturer was conferred on A. E. Smith.

The Hague, July 28.—An epidemic of dysentery due to adulterated foodstuffs has broken out in Bremen and Naphelm, it was reported from the German frontier today.

BOXING BOUT IS DECLARED A DRAW

PAT HANLEY AND KID TRESTER ENTERTAIN BIG AUDIENCE AT "Y."

The nearest hit Albany has ever made to Goldsmith's description of "Sweet Auburn, loveliest village of the plain," was its frolic on the Y. M. C. A. lawn last night. Mighty fast frolics it was, too, especially for "Pat" Hanley, when the grizzly "Kid" Trester was after with the boxing gloves. But the experts said "Pat" landed the most body blows although his opponent was heavier, held his ground, and at one time almost sent Pat under the ropes. W. H. (Sox) Sorber, the referee, said the bout was officially declared a draw. It was a five-round match, three minutes fighting to two to rest. So hard did the boys work that "Bill" Estop, his second, had to fan Trester a lot between rounds, and Ernest Erp had to do the same for Hanley.

Royer Challenges Winner.

On the minutes as announced, the wrestling match began with Earl H. Royer pitted against Charles Royer. Royer rushed the contest at first, being ten pounds heavier than Turner. In ten minutes Turner had thrown Royer, to the accompaniment of a mighty yell from the ringside fans and hand clapping by the fair sex who were located farther back. The second fall went also to Turner, but only after 23 minutes of the hardest kind of work. Secretary Thompson stated that Royer has formally challenged young Turner for a return match and that the winner will in all probability accept.

The features of the night, aside from the feats of strength, were starlight, moonlight, electric-light and light hearts—informality, no bosses, nobody self-conscious, and a big crowd of at least 600 to see the clean sport of the night.

At the close the contents of the lemonade barrels and ice cream dishes came in mighty handy for the tired and thirsty. Throughout all the evening a concord of sweet sounds proceeded from the band which was seated on the long front veranda of the Association building. Those who gave their musical talent for the pleasure of all were Parks Bell, Luther Charles, Will Thompson and Earns Lee.

REV. MANLEY TO PREACH SUNDAY AT WEST SIDE.

GREAT OPEN AIR SERVICE; DR. PERSINGER TO PREACH

If the weather is good a record breaking crowd is expected at the union services of the central churches of Albany on the Y. M. C. A. lawn Sunday evening at 8 o'clock. Special efforts have been made to make the song service the best yet. Dr. J. C. Persinger is always heard with the deepest interest.

SWITCHMEN STRIKE AT CHICAGO TODAY

Twenty-Five Hundred Men Walk Out, Traffic Being Partially Tied Up

SOLDIERS PLACED ON GUARD

Men With Guns and Orders to Shoot are in Control of Situation

(International News Service.)
Chicago, July 28.—Two thousand five hundred switchmen in the yards of nineteen railroads entering Chicago struck today because the railroads would not permit the Brotherhood of Railway trainmen to which they belonged to dictate the appointment of yard masters and assistant yard masters.

An embargo has been declared on live stock and other perishable freight, and it is feared the strike will result in a partial tie-up of the movement of troops, munitions of war and foodstuffs.

Federal guardsmen were placed on duty at every important switch tower and bridge, with orders to shoot to kill any person caught interfering with traffic.

FEDERAL AUTHORITIES TRY TO SETTLE THE STRIKE.

(International News Service.)
Washington, July 28.—Using the good offices of the government to prevent a real tie-up in and around Chicago, Commissioner G. W. Hanger, of the United States board of mediation, is in Chicago today negotiating with the railway and union leaders.

AFFECT ON WAR NOW PROBED BY CLABAUGH

(International News Service.)
Chicago, July 28.—Hinton G. Clabaugh, department of justice investigator, representing the United States, started an investigation this afternoon to determine to what extent the strike of switchmen on 19 Chicago railway terminals is blocking war plans. The Brotherhood of Railway Trainmen claim to have 5,000 men out on strike.

Gen. Sibert Leaves For French Front

(International News Service.)
American Training Camp in France, July 28.—General Sibert, second in command of the American forces in France, is leaving for the French front today to spend several days getting first hand information as to French trench and offensive methods.

The Americans are very skillful with their machine guns and are improving rapidly in bomb throwing. The health of the men is excellent.

Splendid Building in East Albany to Be Consecrated.

Announcement was made today that the members of the First Baptist church of Albany will worship Sunday in the new building just completed. The church building is a splendid brick structure.

Rev. R. F. Stuckey, who has been out of town for some time, will conduct services Sunday morning and evening. All are urged to attend this initial service at the church at 11 a. m.

Gen. Pershing's Men Are Now Ready For Trench Fighting

But Will Await Arrival of Reserves. No Further Announcement of Troop Movements

(International News Service.)
Washington, July 28.—Pershing's men will take their places on the western front very shortly. They could be used today if the necessity demanded it.

Official reports received in Washington show that the Pershing division already has more than a good working knowledge of latest war methods. The camp instruction under French experts has developed that the training the men got on the Mexican border has made them absolutely fit, but they are being held in case headquarters and their training continued until their reserve units get on the ground.

There will be no official announcement of the new units on French soil. The war department already has made it plain that as fast as the American troops are made ready to fight they will be sent forward overseas, but there is to be no parading of that development. The fact that the initial Pershing expedition got through without casualties now is admitted to have been due more to good luck than to anything else.

Knitted Socks in '61, Will Knit More in 1917

A call came to Red Cross headquarters this morning by 3 o'clock from an old lady, saying that she had knitted socks for the boys in '61, and while she was not very strong, she wanted the material to start at once to knit socks for our boys in France. She has a nephew in the trenches and thinks much of his comfort. Anyone who will knit will be supplied the material by the Albany Red Cross. Call-up headquarters, phone 75 or 85.

ALLIED WAR COUNCIL FAILS TO IMPRESS BERLIN

(International News Service.)
Berlin, July 28.—The allied war council in Paris which resolved to continue the war until the aims of the entente powers are achieved and to withdraw troops from the Greek provinces of Thessaly and Epirus, failed to have any material result, according to the view taken by the Lokal Anzeiger.

Third Oldest Man In County Observes His 89'th Birthday

J. S. Hale, who believes himself to be the third oldest man in Morgan county, yesterday observed the eighty-ninth anniversary of his birth. Mr. Hale is still strong and well, and his friends hope that he will live to be 100 or more.

The oldest man in the county, according to Mr. Hale, is Perry Wallace, aged 92, while the second in the lists of longevity is Mr. Drinkard of Lawrence Cove, who is 90.

Mr. Hale, a native of East Tennessee, first moved to Morgan county in 1857.

Capt. Dan Walden, 71, is thought to be the oldest man residing in Morgan county. His family have lived continuously in this vicinity since 1812.

Maj. Chas. Bassett is the oldest resident of Albany, now being 60 years and four.

BAD TASTE IN JOKES IS MOST ABOMINABLE.

Under the caption, "Quit Teasing," the Amnition Star in a recent editorial very pertinently says:

"To the young men who will soon be drafted for service in the regular army, their position is not the joke that some of their friends evidently take it to be. War is a serious business, and it does not make any young man feel particularly good to know that he is to be taken from his chosen work, from his family and friends for an indefinite period, perhaps forever.

Some people who are safely beyond the draft age seem to think it fine wit to "tease" the young men who will be probably drafted. On the contrary, it is the height of bad taste and shows a deplorable lack of feeling.

Don't tease. The young men are going to fight for you. They have been chosen in your place and their service may save your property or your life. Just remember that, and show them that you are in their position.

The advice given by the Star applies everywhere. Here in Albany and Decatur there is entirely too much levity at the expense of the men who have been drafted to serve their country. Consideration should be given to the sacrifices which these men are called on to make, to the financial loss they are to sustain, to the privation which they are to undergo. Aside from this, personal gibes are always in wretched taste. The fine art in joking and teasing is to know when to quit.

Admiral Sims, in charge of the American naval force now in European waters, is already advocating an aggressive campaign against the German U-boats. The Admiral, though his name is not so illustrious as is that of Dewey and Schley, the heroes of the Spanish-American war, is one of the great naval chiefs of the time. His advice is the same as that of Winston Churchill—to "drive the rats from their holes." The risk is well worth taking.

The Tri-Cities' press, instead of being "depressed" as the Huntsville Mercury recently stated, at the temporary loss of the nitrate plant, is rather jubilant at the fine business outlook that has resulted from unusual industrial activity. This is the spirit that wins and that will make Florence, Tusculum, and Sheffield great regardless of any temporary reverses.

As the Birmingham News recently devoted some four inches of space, valued at \$8.00 or more, to informing its readers that one benevolent citizen had loaned a ukelele and another a wagon for the furtherance of a charity scheme, even the most trusting must admit that virtue finds its reward in the newspaper column.

There are several hundred recruiting stations in the United States, yet it is doubtful if a letter addressed in care of any of them would reach W. J. B. or T. R.

The size of the "piece" still seems to be the stumbling block to the early ending of the war.

Just In Passing

BOTTOM ROAD BAD.

"The recent rains have shown again the necessity of improving the Bottom road," said Postmaster Crawford of Decatur. "There is only about a mile of the road and an output of \$1,500 would put it in first class condition. I believe the commissioners of Limestone county would co-operate with the citizens here in improving the road. Under present conditions a wagon or an automobile is lucky to get through the stretch in rainy weather without sticking in the mud."

HOME-MADE FLOUR.

"I can laugh at the price of flour as long as my home-grown flour holds out," said W. W. Williams, deputy sheriff. "It is the best bread I ever ate; in fact, my family will not touch any other kind so long as the home-grown variety lasts."

"The wheat was grown on my farm near Somerville," continued Mr. Williams, "and ground at a nearby mill. Recently I sold my farm, but I regret I sold it since we have been enjoying the big brown biscuits made out of the wheat grown on the place."

CROPS BEST EVER.

"I have just returned from the eastern end of the county and I find the crops green and thrifty," said Walker Chenault today. "There is no comparison in the condition of this year's crop and that of last year. In my opinion Morgan county will make the largest corn crop it ever harvested, and all the cotton would not be picked if the price was not so flattering. I also find lots of feedstuff such as peas, cane and velvet beans growing."

LOCAL MAIL ORDER BUSINESS.

"The volume of business done by Twin City merchants through the mail is rapidly increasing," said an attaché of the Albany postoffice. "The local laundries have a splendid trade with outlying sections, sending laundered articles by parcels post as far south as Cullman and as far north as Pulaski. Some of the department stores, too, are catering to the mail order trade and are adding to their already long line of customers. If more attention was given to selling goods by mail, it is my opinion that really surprising results could be obtained."

"A SPLENDID TONIC"

Says Hixson Lady Who, On Doctor's Advice, Took Cardui And Is Now Well.

Hixson, Tenn.—"About 10 years ago I suffered with a pain in my left side, could not sleep at night with this pain, always in the left side."

My doctor told me to use Cardui. I took one bottle, which helped me and after my baby came, I was stronger and better, but the pain was still there.

I at first let it go, but began to get weak and in a run-down condition, so I decided to try some more Cardui, which I did.

This last Cardui which I took made me much better, in fact, cured me. It has been a number of years, still I have no return of this trouble.

I feel it was Cardui that cured me, and I recommend it as a splendid female tonic."

Don't allow yourself to become weak and run-down from womanly troubles. Take Cardui. It should surely help you, as it has so many thousands of other women in the past 40 years. Headache, backache, sideache, nervousness, sleeplessness, tired-out feeling, are all signs of womanly trouble. Other women get relief by taking Cardui. Why not you? All druggists.

"Certainly; you are very welcome to it. I didn't ask you to send it in the first place."

A THOUGHT FOR THE SABBATH AND EVERY OTHER DAY

BY OBSERVER.

There are two kinds of right. The one is of conscience, and the other may be called "harmonious right," or right that is in harmony with all of the laws of the universe. When these two become one in a man he may be said to be perfect. It is needless to say that such a work as this is not completed in this life, but it begins in this life, if it begins at all. In the Acts of the Apostles, Paul says that he truly thought he did right in persecuting Christians. He had the right of "conscience." A very important kind of right. But a crisis taught Paul that this right against universal right as revealed in the Savior of the world. And all honor to Paul, who was man enough to acknowledge it when he was wrong. In so doing he put himself in the way of realizing the greatest boon that can come to any man—the possibility and the power of bringing one's consciousness of what is right into harmony with God's teachings and laws as to right. A sense of crisis must come to every one before he begins to see, that if he would live, he must bring his idea of what is right into harmony with God's idea of what is right. It is in dealing with people that we find them out and they us. And also this dealing must be concerning some important matter, generally some difficult matter. The team horses, as all country-raised boys know, do not find fault with each other while pulling a light load over level ground, but when they are starting up a hill with a heavy load, the one that is not pulling gets bitten by his teammate, on the ground that he is slack-ing.

The fact that people fall out is not a bad sign always, as it is often a sign of growth on the part of one or both of the fussers. Even this war can be justified, as terrible as it is, if it is a fact that one side has grown to where it knows and follows enough of universal right as not to allow by illegal methods the establishment on earth of individual or conscientious right as seen by one or a few mere men. It is on the same ground that ruling bodies of many churches say to its preachers, "Your conscientious right to use whiskey and tobacco must be annulled if you serve our church acceptably." And finally on a whole thought should be to harmonize his individual idea of right with right as required in the laws of the Bible and in Nature. Blackstone contents himself by defining law as "a rule of human action." Had he gone on to define law further he would have said also that law is a rule of human action that seeks to safeguard and guarantee the human rights of every human being in such a way as to bring the greatest good to the greatest number.

The attitude for one to have who wants to harmonize his idea of right with God's idea, is that of Paul where he says to his Maker, "What will they have me to do?"

WILLING TO HELP.

Hubby—The only way for me to avoid these payments is put everything I own in your name.

Wife—Won't it be just lovely for me to have all that money to spend?

Wanted It All.

The actor dodged, as by his head a cabbage from the gallery sped. "Say, there," he cried, "Will you kindly throw the corned beef, too?"

The Diagnosis. "I can't imagine what is the matter with my daughter, doctor. She moans around all day and seems to be eating her heart out."

"Eating her heart out, eh? If that's the case, she evidently has indigestion."

"The False Friend" at the Delite Theatre on Monday, July 30. With both Robert Warwick and Gail Kane as the stars and with a brilliant supporting company "The False Friend" will be the attraction on Monday at the Delite theatre. The story told in this drama deals with the remarkable villainy by which a wealthy young man wins a beautiful young girl for himself and wrecks the life of his rival, a rising young attorney. The method by which the villain achieves his end is absolutely startling. It is something new in films and it will make a deep impression on all who see this picture. Needless to say Robert Warwick handles his part with skill and assurance. Gail Kane is not only beautiful but is seen in a role in which she shines. "The False Friend" is a truly notable production that should not be missed.

What Is Uric Acid?

THE CAUSE OF BACKACHE, RHEUMATISM, GRAVEL AND SUDDEN DEATH.

Ever since the discovery of uric acid in the blood by Scheele, in 1775, and the bad effect it had upon the body, scientists and physicians have striven to rid the tissues and the blood of this poison. Because of the overabundance in the system it causes backache, pains here and there, rheumatism, gout, gravel, neuralgia and sciatica. It was Dr. Pierce who discovered a new agent, called "Anuric," which will throw out and completely eradicate this uric acid from the system. "Anuric" has proved to be 37 times more potent than lithia, and consequently you need no longer fear muscular or articular rheumatism or gout, or many other diseases which are dependent on an accumulation of uric acid within the body. Send to Dr. Pierce, of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., for a pamphlet on "Anuric," or send 10 cents for a trial package of "Anuric Tablets."

If you feel that tired, worn-out feeling, backache, neuralgia, or if your sleep is disturbed by too frequent urination, go to your best drug store and ask for Doctor Pierce's Anuric Tablets.

Doctor Pierce's reputation is back of this medicine and you know that his "Golden Medical Discovery" for the blood and his "Favorite Prescription" for the kidneys have had a splendid reputation for the past fifty years.

Doctor Pierce's Pellets are unequalled as a Liver Pill. One tiny Sugar-coated Pellet cures Cures Sick Headache, Bilious Headache, Dizziness, Constipation, Indigestion, Bilious Attacks, and all derangements of the Liver, Stomach and Bowels.

Time was, when other things headed the list in planning for the home; but today the Victrola, which represents so much, enjoys unsurpassed popularity.

It is a thoroughly unselfish gift, because it affords pleasure to the entire family. The Victrola is also a gift which appeals both to the heart and to the intellect; no one can listen to the ballads of our great singers like McCormack, Alma Gluck, Evan Williams, Julia Culp, without being deeply stirred; and no one can hear the brilliant operatic arias of Caruso, Galli-Curci, Ruffo, Farrar and other great artists without gaining largely in knowledge of the higher forms of music. Will you not make our Victrola rooms a visit?

And Then He Kissed Her.
"Daughter," said the mother, severely, "I wish to speak to you on a very serious subject."
Daughter assumed her most childlike expression and murmured: "Yes, mamma."
"I must tell you that I was passing through the hall last night and I saw that young Mr. Simpkins kiss you."
"Yes, mamma."
"Did you give him permission to kiss you?"
"No, mamma."
"Then how did he come to do it?"
"He asked me if it would offend me if he kissed me."
"Yes, yes. And what did you say?"
"I said how could I tell until I knew how it would affect me."—Cleveland Plain Dealer.

Birds Heaviest Eaters.
Birds are the heaviest eaters in the animal kingdom. Assuming—which is conservative—that an adult lark consumes fifty grasshoppers a day and that five pairs of larks nest each season on every good-sized farm where they are not persecuted or too much disturbed by the plowing and mowing of all the suitable land, the number of grasshoppers dispatched daily on such a farm means a boon the enlightened farmer must appreciate.

Russia Plans Waterways.
Russia may carry out a complete reorganization on a huge scale of its inland waterways, if plans made previous to the recent political upheaval are realized. The project includes improvement of existing waterways and ports, construction of new waterways and ports, utilization of waterfalls for producing electric power, improvement of navigation, etc. The work, it is estimated, will be finished in 1930 and cost \$487,000,000.

Postoffices Tell How to Send Parcels to Soldiers

Parcels for boys from Albany and Decatur who are fighting for the Stars and Stripes in France may be sent by parcel post at the rate of 12 cents per pound, it was announced today at the local postoffices. The parcels should be carefully wrapped and great care should be taken that they bear the proper amount of postage. The name and address of the sender should be plainly written in the upper left hand corner.

Under no circumstances should the location or station of a military organization be given on mail for any member of such forces. Parcels intended for soldiers in Europe should be addressed as follows:

John Smith (or name of addressee), Company E, Fourth Alabama Infantry, (or name of official designation of unit to which addressee belongs), American Expeditionary Forces.

Even if the sender positively knows that the addressee is located at Paris or Verdun or any other point, this should not be stated for obvious reasons.

Postmasters Crawford and Alexander also stressed the point that letters addressed to American soldiers in Europe should be addressed as above and the utmost care should be taken that the proper amount of postage should be affixed, as the post-office department has no facilities to collect on postage due letters in France. Domestic rates of postage apply to letters to the soldiers.

Governor of Texas is Under Indictment

(International News Service.) Austin, Tex., July 28.—"The political Austin ring, who have long feasted upon the people at the state capital, are the influence behind these indictments brought for the intimidation and persecution of a governor of Texas."
"This was the statement today of Gov. Ferguson, one of four state officials indicted by the Travis county grand jury yesterday for alleged misapplication of public funds.
